

New Probiotic Possibilities for Functional Foods

WHAT IS THE LACTICEUTICALS™ LINE?

- **LactiCeuticals™** is a new VDF FutureCeuticals product line based upon various strains of lactic-acid producing bacteria, alone, or in combination with other carefully selected functional ingredients.
- The **LactiCeuticals™** line includes Probiotics, Prebiotics and Synbiotics.

WHY IS THE LACTICEUTICALS™ LINE IMPORTANT?

- Probiotics, prebiotics and synbiotics promote the maintenance and repopulation of beneficial bacteria in the digestive tract that can contribute to better health and well being.
- They assist in:
 - Promoting healthy aging.
 - Maintenance of healthy body weight, cardiovascular systems, and glucose metabolism.
 - Promoting healthy immune system response.
 - Supporting healthy digestion.
 - Supporting gastrointestinal health maintenance of healthy GI flora levels.
 - Promoting healthy lipid levels.
- Due to modern, highly processed foods, many diets are significantly probiotic-deficient. Processing can deplete beneficial probiotic populations.
- Medications such as antibiotics have been shown to kill off friendly bacteria.
- Probiotic supplementation should be incorporated to assure healthy gut flora propagation.

WHAT COMBINATION BLENDS ARE ALREADY AVAILABLE?

- In addition to individual probiotic strains, VDF FutureCeuticals offers numerous blends of selected pre- and probiotics. Just to name a few:
 - **HardiStrain™**
 - **VitaPro™**
 - **BetaPro™**
 - **Nutrim™**
 - **FutureNatant™**
 - **Plantarum Cholinum™**
 - **Lactis Oxalica™**
- Each product is designed to address specific aspects of human health.

WHY VDF FUTURECEUTICALS?

- VDF FutureCeuticals is a primary producer of a wide range of probiotic products for the dietary supplement and nutraceutical industry. We offer a full range of strains in custom concentrations for all of your probiotic needs.
- VDF FutureCeuticals' LactiCeuticals™ line is:
 - Generally Recognized as Safe (GRAS).
 - All-Natural.
 - Loaded with hearty, beneficial microorganisms and healthy plant fiber.
 - Affordable.
 - Easily incorporated into product formulations.
